THE FLORIDA WOMEN'S CONFERENCE on Observance of International Women's Decade offers women throughout Florida a dynamic opportunity to discuss, celebrate and explore their womanhood. The Conference will focus on women working together to understand and resolve critical issues that cut across the lines of diverse political, cultural, racial, and economic issues.

The Conference is for *every* woman of Florida. Its goals are:

- to aid in improving the situation of women in Florida
- to assess the role of women in the economic, political, social and cultural life of Florida
- to identify the barriers to women's full participation in Florida life
- to recognize the contributions of women to the development of Florida
- to report the concerns of Florida women to the National Conference on the Observance of International Women's Decade

To reach the Conference goals, the Coordinating Committee has designed an array of festivals, exhibits, workshops and open discussion sessions. Conference participants will elect delegates to the National Conference and vote on a Plan of Action for the women of Florida.
